

Konstantin Hyppönen

Dr. Hyppönen is a policy officer working on digital health in DG SANTE of the European Commission. He is participating in the work on establishing the European Health Data Space. He has taken part in a number of international projects, including setting up the EU Digital COVID Certificate system, and cross-border ePrescription and Patient Summary services between EU Member States (MyHealth@EU). He currently acts as a policy owner of MyHealth@EU, working on the expansion of this infrastructure to further data categories and functionalities.
