

Maria Papaioannou

Maria Papaioannou is a project manager at the eHealth Lab of the University of Cyprus leading projects like eHealth4U for driving the design and implementation of a prototype for Cyprus's national integrated Electronic Health Record (EHR) system and CY-Biobank project, which aims at building a contemporary population-based Biobank research infrastructure that incorporates eHealth services. She is also actively involved in transitioning Cyprus's cross-border services (myHealth@EU) from CDA to FHIR."
